

GAME OBJECTIVE

The vampires and werewolves are fighting to rule the night. To win, get 3 of your tiles in a horizontal, vertical or diagonal line.

SET UP

Place the game board in the middle of the table.

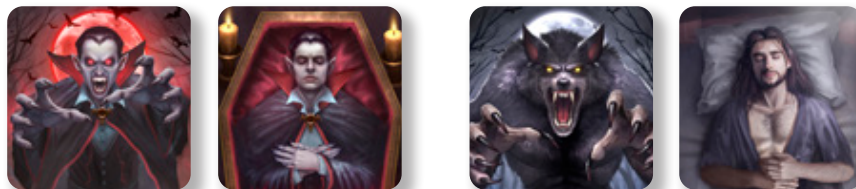

PLAY & ADAPT

The game is played in turns.

The youngest player starts and places one of their tiles on any free spot, with the 'attacking' side face up. Then it's the other player's turn.

From now on, each player, in turn, must take the following 2 steps:

- 1 Flip the 'attacking' side of one of your opponent's tiles to the 'sleeping' side whilst keeping it in the same spot OR remove one of your opponent's tiles that is already on the 'sleeping' side.
- 2 Place one of your own tiles in a free spot with the 'attacking' side face up to end your turn.

STEP 1

STEP 2

END OF THE GAME - THE WINNER!

The first player to align 3 of their tiles in a horizontal, vertical or diagonal line, wins the game. It does not matter which side of the tiles is visible!
